

HOST Cube Self Bunded

WASTE OIL CUBE - SELF BUNDED TANK

Available in 1,000, 2,000, 3,000, 4,500, 6,000, 8,000 & 10,000 Litre

Our Waste Oil Tanks are designed to provide fast and easy access to empty small oil containers, filter elements or extract oil from larger drums using a pump and wand system.

Features include:

- ▶ Self Bunded Tank
- ▶ Draining point for pouring waste oils
- ▶ Hatch design with basket mesh kit to cater for draining oil filters overnight and still allow for other waste oil draining to occur at the same time
- ▶ Lid can be closed when oil filters are draining
- ▶ Accessible capped 2" waste extraction point
- ▶ Built to AS1940 & AS1692
- ▶ Optional - Extraction pump & wand system for safer and more effective handling
- ▶ Optional - Larger drainage tray

1000L Waste Oil Tank
